AMERICAN TORPEDOED

SUBMARINES SINK TANK STEAM-
ER—CREW IS BELIEVED
LOST.

By United Press.

Rome, Dec. 8.—The crew of the American steamer Communipaw, reported submarine near Abruk, Tripoli, are believed lost. Greek and Italian steamers answering the vessel's distress signals found no survivors. She carried a crew of five officers and thirty-nine men. The nationality of the submarine is unknown.

Entire Crew Lost.

London, Dec. 8.—The American steamer Communipaw sank off Tabruk "with all hands," according to a Rome dispatch. This is taken to mean that the entire crew was lost.

Report May Be Unfounded.

New York, Dec. 8, 2 p. m.—Local Standard Oil offices received a cablegram from their Alexandria agent saying the tanker Communipaw, reported submarine by Rome dispatches, arrived at Alexandria Sunday. There was no intimation that the vessel had been attacked by a submarine. Officials admit it is possible the Communipaw may have left port the following day and then attacked and sunk but it is thought improbable. It is said the vessel would take some time in discharging her cargo and probably lie at Alexandria a few days before beginning her return voyage.

Steamer's Fate Uncertain.

London, Dec. 8, 2:30 p. m.—Sharp contradictions in reports of the fate of the American steamer Communipaw makes it uncertain whether a submarine actually attacked the tanker. It is believed the Communipaw may have escaped while en route to Alexandria but escaped as did the American tanker Petrolite or some other vessel unidentified was the submarine's victim.

SHOOTING AT SHERMAN

B. R. WISE SHOTS OUT WIFE'S
EYES—WOMAN IN CRITICAL
CONDITION.

By United Press.

Sherman, Tex., Dec. 8.—B. R. Wise shot out both eyes of his wife, Grace Wise, at a down town hotel this morning. One revolver bullet plowed across her face, and another struck her right arm and entered her breast. Her condition is critical.

She came here from Bonham last night and registered as Miss Fisher. Wise arrived this morning and registered as B. R. Whitney. Shots were heard a few minutes later. Wise said he drank a pint of whiskey at Denison and remembered nothing of the shooting. He is held on charge of murderous assault.

GREEK SHIP IS HELD UP

ENGLISH OFFICIALS TAKEN OFF
BY AUSTRIAN SUB-
MARINE.

By United Press.

Messina, Dec. 8.—Capt. Wilson, a member of the English parliament and owner of the Wilson steamship line, and Colonel Napier, former English military attaché at Sofia, were taken off the Greek postal steamer Speza and made prisoners by an Austrian submarine. The Speza was halted off Patraz; the Greek commander protested, and while the Austrians were searching the vessel several mail bags believed to contain English men's papers were thrown over board. The submarine recovered them, however.

England Would Withdraw.

Paris, Tex., Dec. 8.—Despite the wishes of her Allies England favors the withdrawal of the expeditionary forces from the Balkans was hinted strongly after today's session of the allies' war council. The proposition is alleged to have been made by General French and opposed by Gen. Joffre and other allied representatives. "If England persists alone in favor of leaving Saloniki then the remainder of the allies will continue to aid the Serbs," said a high French official.

Fort Blown Up.

London, Dec. 8.—Dutch reports say an explosion wrecked Cogneles fort at Namur, Belgium, killing 80 German soldiers.

Montenegro Wants Peace.

Berlin, Dec. 8.—King Nicholas suggests to the Entente ambassadors that Montenegro be allowed to conclude a separate peace with the Teutons because the country is exhausted according to the Frankfurter Zeitung.

WOMAN IN THE CASE

SUSPECTED OF COMPLICITY IN
PRO-GERMAN PLOTS ON
COAST.

By United Press.

San Francisco, Dec. 8.—Federal authorities investigating pro-German plots are seeking Mrs. Abbie Cornell, supposed to have been in touch with C. C. Crowley and Baron von Brincken, both of whom are under arrest. Another woman conferred privately with District Attorney Preston. Crowley's attorneys claim Lewis J. Smith double crossed von Brincken and Crowley while ostensibly working with them.

REPORT OF GINNERS

FALLING OFF OF OVER 3,000,000
BALES OVER 1914
CROP.

By United Press.

Washington, Dec. 8.—The cotton census shows 9,711,453, bales counting rounds as half bales, ginned from the 1915 crop to December 1 against 13,075,386 the same date last year.

Big supply of No. 10 oil leases now on hand. News office.

Theaters

MAJESTIC.

The Pitfall is an unusually strong Kalem drama in which the lives of three people are blasted by the turn of a card. Keen dramatic interest in every scene. Staged by Kalem stars amid the most gorgeous settings which enhance the beauty of the picture. Coming Friday, the Giersdorf band; ten people.

DE SOTA.

St. Elmo is the attraction of the evening. Six wonderful parts made up of 194 scenes. The novel of which this story is a dramatization, ranks as an American classic in emotional literature, and as presented in moving pictures is far more intense than even in book form.

GRAND.

Sydney Ayres and Doris Pawn are featured in the drama, Every Man's Money. When Lizzie Went to Sea is a rich Nestor comedy. Avenged by a Fish is another side splitting comedy. Coming soon: Mary Fuller in the great drama, Under Southern Skies.

PLACE NEGRO IN HIS DEATH CELL

McAlester, Dec. 8.—Henry Bookman, the McIntosh county negro who is sentenced to be electrocuted Friday, today was removed from the west cell wing to a death cell in the basement of the prison from where he will be taken to the electric chair Friday morning. So violently did the prisoner resist the change of berths that it required the strength of four negro convicts to do it. Bookman was more quiet after a half hour's rest and, although still refusing to talk, tonight showed more signs of rationality than he has since the state court of appeals affirmed the judgment of the trial court.

OPINION OF FORD

PEACE PARTY WILL WIRELESS
VIEWS ON WILSON'S
MESSAGE.

By United Press.

Aboard the Peace Ship Oscar II, via Wireless, Dec. 8.—The Ford party will wireless Wilson their opinion of his message as soon as they reach an agreement. Radical peace advocates are urging denunciation of his preparedness program. Conservatives oppose criticizing the president. Ford says he is not only determined to end the European war but industrial warfare as well. There are symptoms of Ford converting some skeptics aboard to his peace program.

"Henpecked Henry."

"Henpecked Henry" at the Majestic last evening drew a big crowd of theatre goers. The entertainment was rollicking comedy, some of the situations being rather bold. The black-faced comedian was the artist of the evening, as his singing outshone any thing else on the program. The big crowd laughed gleefully for an hour and a half.

Mr. Sweeney of Galveston is now mechanic for the City Garage and is prepared to do repair work on all makes of cars. Prices reasonable. 12-8-61*

REPUBLICANS WILL NOT OPPOSE WILSON

If the United States must spend many millions for new warships and more equipment for the army, the government should prepare to do most of the work itself. When the interests which have fattened at the expense of the nation no longer have a monopoly on this line of business we shall hear less about the necessity for ever increasing expenditures for "preparedness."

The president's message favoring drastic laws against foreign agitators who stir up trouble in this country is very much to the point. During the past year they have been very active

ST. LOUIS GETS CONVENTION

Washington, Dec. 7.—The Democratic national convention of 1916 will be held at St. Louis beginning Wednesday, June 14, at noon. The Democratic national committee Tuesday night named the convention city and adopted resolutions calling for the renomination and re-election of Woodrow Wilson as "the trusted leader of national democracy."

Chicago and Dallas contested with St. Louis for the honor of the convention, but St. Louis easily led from the start and won on the second ballot. When the trend of the voting was seen Texas moved that the choice of St. Louis be made unanimous. Dallas held second place on the first ballot but was displaced by Chicago on the second roll call.

The result of the first ballot was: St. Louis 25, Dallas 14, Chicago 13. On the second ballot the vote was St. Louis 28, Chicago 15 and Dallas 9. The majority for St. Louis was gained on this ballot, when John T. McGraw arose near the end of the call and changed West Virginia's vote from Chicago to the Missouri city. Then the choice was made unanimous.

SPICY STORIES FROM WAR FRONT

By Carl W. Ackerman

(United Press Staff Correspondent.) Berlin, Oct. 23. (By Mail)—The crusaders against the use of foreign words and languages in Germany are temporarily blocked. Ernest Brues, a Dusseldorf writer, has discovered that there are 100,000 foreign words in the German dictionary and it is calculated that it would take many years to get them out.

The wedding process, which began several months ago, is continued in some part of Germany every week. Last week a big meeting was held in the townhall of Dusseldorf. At the meeting were members of the General German Language club and the President of the International Hotel Keeper's club. All agreed that foreign words should not be used, especially on signs, but the Hotel Keepers won the point of having the word hotel, which is originally French, remain as a German word on the ground that 40 per cent of the visitors to hotels here are foreigners. Finally the meeting adopted this resolution:

"This meeting, which is attended by representatives of Commerce and Trade for the District of Dusseldorf, considers it its duty to point out that foreign words still appearing on signs, labels, nameplates, etc., should be replaced as far as possible by good German words.

The phrase as far as possible was put in after Brues informed the meeting of the 100,000 enemies in the German language.

England Opens Training School for Waiters.

London, Nov. 2. (By Mail)—The war is going to work a revolution in the status of the waiter, according to G. B. Sims, secretary of the British Hotel Restaurant and Club Employers Society. Heretofore London has depended largely upon aliens for table service. While the French and Italians furnished some, the Germans and Austrians were responsible for most of it.

To replace these the society has opened a training school for waiters. There has always been a shortage of English waiters in the past and it was this that brought about the influx of foreigners. By changing the whole status of the waiter and making the occupation a more desirable one the society hopes to secure enough English followers of the vocation to keep out aliens following the close of the war.

Germans' Electricity for British Soldiers.

London, Nov. 2. (By Mail)—How a part of the British line was supplied with German electricity was told today by a member of the London Irish Rifles. British telephone linemen found two live cables back of the British lines in Northern France. The current came from a German generating station somewhere across No Man's Land. The linemen soon fitted wires and piped the current into battalion headquarters, the dressing stations, officers' dugouts and other points. Incandescent lamps were supplied from a nearby village and German electricity was thoroughly enjoyed "by all."

BEBEE CLUB CONGRATULATED

Ada, Ok., Dec. 6, 1915.
Mr. W. E. Walker, Sec'y Bebee Good Roads Club
Beebe, Oklahoma.

My dear Sir:
Many and flattering are the reports that come to me, daily, of the activities of your Club; and I am taking this opportunity to commend the move and bid you God speed in the good work you are doing. Your Club is one of the first districts in this county to take up the matter of good roads in an active way. A great number of communities have talked about good road building, but it appears that yours is the only district that has really done and are doing what is talked about.

You already understand the offer that I am making as to the prizes, hence I shall not mention that matter here, except to say that, if you find it convenient to make pictures before and after your road building, I would be pleased to develop those pictures and use them as slides in a stereopticon lecture which I am preparing. This lecture will be given in practically all the school communities of the county sometime during the year.

Trusting that the spirit manifested by your club shall grow until every individual of that district has joined in the move and that other districts may become inspired by your example, I am,

Yours very truly,
W. T. MELTON,
County Superintendent.

SOCIALIST SHERIFF WINS FIGHT FOR OFFICE

Oklahoma City, Dec. 8.—Reversing the district court of McClain county, the supreme court Tuesday morning held that Mark Reader socialist, was regularly elected sheriff of McClain county in the election last November. Reader and Frank Farriss, democrat were candidates. Returns showed Reader elected by a margin of only a few votes and over the objection of his Democratic opponent, he was awarded the certificate of election. Farriss brought quo warranto proceedings to oust Reader from the office. The district court of McClain county held that Farriss was entitled to the office, but the supreme court took the opposite view of the case.

The Paris correspondent of the Scientific American writes of the advantages afforded by electric current to the small industries of Europe. Artisans now become operators of small but well arranged mechanical plants and use all the most recent labor-saving devices which are run by electric motors. Small industries now share the advantages of the larger ones in obtaining a better and more regular production, thus increasing the value of the products, and the amount of business is augmented for the same general expenses. Cost of hand labor is also reduced.

Mix the Breakfast Biscuits the Night Before—

Set Them Away in a Cool Place and Bake them Fresh in the Morning

If the family do not all eat breakfast together, you can bake a few at a time. If you are having hot biscuits for supper, mix and cut out enough more for breakfast. They will be much nicer freshly baked than warmed over.

Of course you can't do this very successfully with sour milk and soda or with any of the old fashioned, single acting baking powders, but this convenient way of making hot biscuits and muffins for breakfast is entirely satisfactory if you use

KC BAKING POWDER

which is really a blend of two baking powders, one of which begins to give off leavening gas as soon as moisture is added. The other is inactive until heat is applied. The dough will remain in a partly leavened condition for hours and when put in the oven will come up just as light and fluffy as if freshly mixed.

Get a can of K.C. today and try this easy way of baking biscuits at once. You'll never go back to the old way. 51

TO MAKE RURAL CHURCH SOCIAL CENTER

(United Press Correspondence)
Columbus, O., Dec. 8.—To make the rural church in America not only the religious, but the social, commercial and agricultural center for the farmer and his wife and children, is the object of a conference here today between Gifford Pinchot, agricultural educators, churchmen, farmers and others meeting with the Federal Council of Churches and the National Commission on Church and Rural Life. President Wilson is expected to address the convention Dec. 10, the last day, discussing his ideas of rural credits, one of the big questions with which congress is expected to deal this year. Gifford Pinchot, who is chairman of the commission, in his address before the conference today, said in part:

"I believe we stand today on the threshold of a great movement which will bring back to the church in the country and smaller towns the greater power for good it used to have. I do not contend that the church should take the functions of the Grange or the agricultural school, but I believe the failure of the country churches through their ministers, to get into productive touch with the work and needs of the country people is one of the fundamental reasons for the present weakness of the country church. Good farms, good roads, good schools are necessary to the success of churches and active churches should assist powerfully in securing such material improvements."

"We are not here to advocate the weakening or strengthening of any one denomination at the expense of another, nor have we any theory to exploit or any ax to grind. We merely seek the truth about conditions, together with remedies that are both wise and practicable."

Ohio has been selected as a field for the first intensive rural church reform campaign. A survey by the state shows that 800 of the 5000 Ohio country churches have been abandoned, one-third are growing, while two-thirds have ceased to grow or are dying. Eighty-three percent of them have a membership of less than 100 each. Only six percent have individual preachers, the others having from one-half to one-sixth of some minister's time.

The plan is to combine the strength of these country churches and establish at the logical points, community churches which, in addition to being houses of worship on Sunday, will be expected to be active in promoting good roads, scientific farming, public health and sanitation, temperance, public recreation, community beautification, better schools, library organization and other things of that sort.

It is the belief of the leaders of this movement that the average country minister is underpaid and often needs wider practical experience and training. Among those on the program today were:

Dr. Washington Gladden, Columbus; Dr. W. F. Richardson, Kansas City; Prof. Edwin L. Earp, Madison, Mo.; Dr. Alva W. Taylor, Columbia, Mo.; Dr. S. K. Mosiman, Bluffton, O.; Dr. Ward Platt, Phila.; Albert E. Roberts, New York; Miss Jessie Field, New York; President W. O. Thompson, Ohio State University, Columbus; Rev. Hubert C. Herring, Boston, and Rev. R. A. Hutchinson, Pittsburg.

Ten years ago, says the Panama Star and Herald, the small boys of the Canal Zone played at bull fighting. Now they have lost their ambition to become slayers of bulls and wish to become great baseball players. The national game has followed the flag, conquering the brutal sport that preceded it. The Panama boy has even translated baseball slang into Spanish, according to the Herald. At a recent game, it says, "we heard a Panamanian boy say in Spanish, 'Bunt, man, bunt! now is the time to bunt!' The boy was right, and the batter did it. No boy ever got more joy out of the death of a bull than that boy did out of that bunt."

Harvey Lawrence, known among the inmates of the Hutchinson (Kan.) reformatory as "the piece of a man," recently escaped from the institution. Lawrence acquired his name through his physical condition. He has lost one arm, one leg and one eye. He was sent up from Ford, Ford county, for stealing a Ford car. Lawrence is a chronic wanderer and told the officers at the time of his arrest he was tired of hopping around on one foot.

Government reports show that the trade of the United States in fruit and nuts has doubled in the last decade. Exports and imports together amounted to \$92,840,172 in 1914.

Oil and Gas News

ALLEN.

The K. C. Company is planning to drill six new wells within the near future. This company now has two wells producing. One rig is already up and drilling will start within a few days. Another rig is being moved from Madrid and will be put in immediately. All of these wells and locations are in Section 23-5-8.

The Drillers Oil Co. is preparing to sink four new wells, all in Section 26-5-8.

The Curtz Oil Company is planning to sink two wells, also in Section 26-5-8.

The refinery at Allen is running regularly now and is using about 100 barrels of oil a day. The capacity of the plant is 500. The production will be increased as rapidly as the oil is brought to the surface of the ground. The present producing wells are selling the oil at the wells.

Republicans Called to Meet.

Oklahoma City, Dec. 8.—A circular letter has been sent to hundreds of Republicans in Oklahoma asking them to meet in Oklahoma City Dec. 11 to consider the office of national committeeman. The letter is signed by the same committee of friends of H. F. Sinclair of Tulsa who sent out a letter some time ago indicating that Mr. Sinclair might be willing to become committeeman.

The meeting is to decide whether Mr. Sinclair or some other man shall be chosen for national committeeman. It has been rumored for some time that there is a possibility of the Sinclair forces joining with the supporters of James A. Harris, incumbent, who wants to be retained on the job, and supporting him unanimously. The meeting next Saturday will probably decide this.

The letter, signed by G. R. McCullough, R. W. Kellough, Charles A. Steel, Charles Page, J. H. Simmons, James A. Veasey and Eugene Lorton.

Five cans of tomatoes per capita is the report for the present season in the United States, and this does not include the millions of the fruit preserved in private houses.

SUPT. MELTON ON EDUCATIONAL CAMPAIGN

Supt. Melton has written the following letter to the various teachers of the county:

"Dear Teacher:

"The state has just closed a campaign for rural betterment of schools. This county did not join in that campaign because of the school's not being in session, however, at present a majority of my schools are now open and I deem it an opportune time to do for this county what has been done for other counties. Prof. A. L. Fentem, of the East Central Normal, will accompany me on a tour of the county. The main subject of the talks to the various schools will be "Rural Improvement." More is being said and done now toward this end than ever before. People of all vocations of life are awakening to the realization of the improvements demanded by the rural schools."

We plan to visit your school, as you will note, from the schedule given below. We are anxious that at the hour designated on the schedule, you have a representative number of your patrons present to hear the talks that will be given. Send out special invitations to your patrons and insist that they, for that hour, be present in order that Mr. Fentem may have a good audience and that the desired object may be obtained.

BRENTS CAMPS ON CREEKMORE'S TRAIL

Oklahoma City, Dec. 8.—When the prosecution presented the names of fifty-one new witnesses for use in the William J. Creekmore liquor conspiracy cases Tuesday morning, just before the trial was scheduled to be started in the county court, attorneys for the defense hastily advanced a "surprise" contention and obtained a delay until Friday. They asserted they would need at least three days to complete their preparations for trial, as the result of additional witnesses to be considered.

The name of T. E. Brents, special agent of the department of justice, was among the fifty-one new ones. Brents has been one of the government's foremost liquor traffic investigators for years, and so extensively has he probed into rum law violations that the very mention of his name is said to strike terror into the heart of a bootlegger who has cause to believe that he is under Brents' keen eye.

Much of the information gathered by County Attorney Embury preparatory to instituting the Creekmore conspiracy cases was furnished by Brents, who spent several months here assisting in digging up evidence desired by the prosecutor. When the cases were brought the county attorney did not know whether he would require Brents' services as a witness also.

SAVES DAUGHTER

Advice of Mother no Doubt Prevents Daughter's Untimely End.

Ready, Ky.—"I was not able to do anything for nearly six months," writes Mrs. Laura Bratcher, of this place, "and was down in bed for three months."

I cannot tell you how I suffered with my head, and with nervousness and womanly troubles.

Our family doctor told my husband he could not do me any good, and he had to give it up. We tried another doctor, but he did not help me.

At last, my mother advised me to take Cardui, the woman's tonic. I thought it was no use for I was nearly dead and nothing seemed to do me any good. But I took eleven bottles, and now I am able to do all of my work and my own washing.

I think Cardui is the best medicine in the world. My weight has increased, and I look the picture of health."

If you suffer from any of the ailments peculiar to women, get a bottle of Cardui today. Delay is dangerous. We know it will help you, for it has helped so many thousands of other weak women in the past 50 years.

JOHN FIELDS EDITS OKLAHOMA FARMER

There are very few farmers in this section who will not be interested in the announcement of the consolidation of the state's two leading farm papers, the Oklahoma Farm Journal with the Oklahoma Farmer.

John Fields, who has been the editor of the Oklahoma Farm Journal for these many years, will retain an interest in, and continue as editor of the consolidated publication, which will bear the name of Oklahoma Farmer. Few men there are in the Southwest with a larger acquaintance among the farmers of Oklahoma than John Fields. He has been actively associated with the agricultural interests of Oklahoma for nearly twenty years and was director of the state experiment station for several years. He is recognized as the foremost authority on agriculture in the state.

He started the "sure feed crops" movement in Oklahoma and thousands of Oklahoma farmers enlisted in Field's movement to make the kafirs staple crops in Oklahoma.

Oklahoma Farmer will be considerably enlarged and improved and with its circulation of more than seventy-five thousand, practically all within the state, will be a power for good in all matters affecting the interests of the farmers of Oklahoma. And with Mr. Fields' ability and knowledge at the disposal of its readers, certainly Oklahoma Farmer will continue being recognized as the foremost farm paper of the southwest.

That the circulation and advertising rates will remain exactly the same as before, is the announcement of the publisher of Oklahoma Farmer, Arthur Capper. The editorial, advertising and circulation offices will be located in the Colcord building, Oklahoma City.

RED CROSS SEAL FIGURES.

225,000,000 Holiday Stickers Already Distributed in United States.

Few people have any conception of the magnitude of the Red Cross Christmas Seal Campaign. Here are a few figures that will show what a gigantic movement this is. Already 225,000,000 seals have been printed and practically that entire number distributed to agents in every state and territory of the Union from Alaska in the North to the Canal Zone in the South and from Porto Rico in the East to Hawaii in the West. Advertising circulars, posters, cards, etc., to the number of several million have also been distributed. Not less than 1,000,000 personal letters asking people to buy seals have been sent out. It is estimated that the army of workers, nearly all of whom are volunteers, engaged in selling the seals numbers well over 500,000. The advertising and publicity donated to the campaign amount to several hundred thousand dollars. Every effort is being put forth to sell 75,000,000 seals, or less than one for every man, woman and child in the United States. This will mean \$750,000 for the anti-tuberculosis campaign in the United States, and particularly all of the 1,200 anti-tuberculosis associations of the country derive their support from Red Cross Seals.

SQUARING ACCOUNTS

By KEITH KENYON.

"Oh, Dorothy! What do you think? Here's a letter from the Union Realty company about our mortgage. They don't want the interest this time. They're after the entire amount or the farm. They must know your Uncle Tom's away and won't be home for a month. I don't know what to do. He always attends to these things. Oh, dear!"

Dorothy's pretty face was sober. "Don't you see how it is, Aunt Polly? It's as clear as day. Mr. Wakefield is at the head of the Realty company and he is interested in all the oil leases around us. This is his chance! Isn't it hateful!" She stamped her foot with indignation.

"I guess that's about right, Dorothy. It's the oil! I wish Tom was home to see the man when he comes. The letter says their representative will be here tomorrow to look over the situation. That means, I suppose, he's to go back and tell them the best place to put down wells."

"Never mind, auntie. Let me dream over it and I'll be sure to find a way out by tomorrow!"

Comforted somewhat by her niece's assurance, Mrs. Lenhart started to pare apples for pies. Suddenly Dorothy had an inspiration. "Let me bake the pies, auntie, won't you?"

"Certainly, dearie. I'd be glad if you would. I want to attend to some other things before our company comes."

But Dorothy had another inspiration, and it ended by her coaxing her aunt to spend the day with a relative. Anxious to convey her news to sympathizing listeners, Mrs. Lenhart was not hard to persuade.

So Mrs. Lenhart drove away and Dorothy laughed a wicked little laugh that means mischief for someone.

When Stewart Martin arrived at the farm the next day he was visibly pleased at the greeting of Mrs. Lenhart and her very pretty niece. It was dinner time and the most delectable smells came from the kitchen, which added to his contentment.

"Dorothy cooked the dinner," beamed her aunt. "She doesn't often take a notion, so I hope you'll feel sufficiently flattered."

He bowed his acknowledgment. "I am, indeed, Miss Dorothy. If things taste as good as they look, you are ready for a diploma."

Dorothy reddened. Then she suddenly left the table. "I'm not hungry, auntie. I—I have a headache. Please go ahead and eat."

After the first mouthful of food, Aunt Polly's expression changed from one of worry to chagrin. What was the matter with the chicken? Dorothy had evidently emptied the salt crock and pepper box on it. But a hasty bit of potato proved the contrary. A goodly portion of salt, pepper and a suspicion of sugar had also fallen to their lot. The beets, peas and even preserves and the pie had been ruined with salt.

"I'm sorry, Mr. Martin. Dorothy has evidently had a little joke at your expense. If you'll wait, I'll get you some bread and butter and preserves and a cup of tea."

But the gentleman had lost his appetite and declined with thanks. "I think I'll look over the farm a bit, if you don't mind."

Dorothy did not appear all afternoon—nor at the evening meal, which her aunt got herself.

But how was his hostess to know that he slept on the floor all night, after a vain attempt to clear his bed of sand and Spanish needles?

At dawn he was dressed and out. Tired and discouraged, he determined to leave at the earliest opportunity. Then he saw the cause of all his trouble milking a cow in the barnyard and looking like a picture in pink gingham.

He hesitated an instant. Then an odd look came into his eyes. "I've always been known to get even, Miss Dorothy," he said, coming up behind her, and as she turned in surprise he stooped, caught her face in his hands and kissed her first on one cheek and then the other.

She sprang up furious. "You coward!"

He smiled tolerantly. "When people act like children they should be treated as such. It's no crime surely to kiss a child."

"What do you mean?" "That I'm so full of sand I could ground a ship and so full of water after the salty dinner I could float it off again."

She had to laugh. Then she bit her lip, provoked. But it was too late for dignity.

"But you're so mean to come here and try to steal uncle's farm when he's away!"

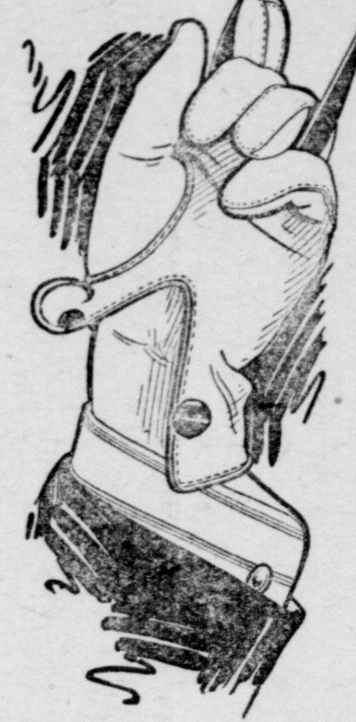

"You're in wrong somehow, Miss Dorothy. Your uncle sent me here to look over the ground and locate good places for wells. I'm an oil expert. I'm going to make his fortune for him."

"Then you didn't come to foreclose for the realty company?"

"Never heard of it. The only thing I'd like to foreclose on around here, Miss Dorothy, is a very pretty girl in a pink gingham dress. Now, please, don't be angry again. When you know me better you'll find that it's my way to go directly for everything I want, and," meaningly, "I generally get it."

Alaska is the great fur-bearing section of the United States. It produces about \$1,000,000 worth of furs annually. These include all varieties from squirrel pelts of an average value of 8c each to black fox pelts at from \$250 to \$1,250 each. The fur output in 1913 included 2,600 bear skins valued at over \$33,000 at from \$9 for brown bear skins to \$40 for the grizzly or polar bear. The greatest fur market of the United States is at St. Louis, but of the world is in London. The war in Europe has cut the price of Alaska furs about 50 per cent this year. Some fox pelts bring very high prices and are much sought after.—Leslie's.

COTTON RECEIPTS ALMOST 6,000

Cotton receipts at Ada now total 5,791 bales. The county yard has received 4,892 and the round bale gin has turned out 1798, which counted as half bales, is the equivalent of 899.

The exceptionally fine weather which has prevailed for the past three months, has enabled the farmers to make good headway with their cotton picking and the bulk of the

crop is now out. It is now apparent that the receipts at Ada will be around 7,000 bales. This is considerably below the average, due to the great reduction in acreage, but the farmers have received more from this small crop than from the large one of last year.

We have several slightly used sewing machines that we will sell at a bargain.—Singer Sewing Machine Co. —W. C. Williams, Agt. 11-8-tf

Big, clean cotton rags are wanted at the News office. Three cents a pound.
